

## Oceanic Teak Furniture 56in Round Table Assembly

There are just 3 parts – Table Top & 2 Leg sections – joined/ 4 screws  
Tools required – Phillips Screwdriver / Wooden or Rubber Mallet

You will see there are coded stickers on the parts, make sure you align the relevant stickers to make sure the furniture is assembled correctly.  
You may need to use a wooden or rubber mallet to tap the legs into place and ensure they are slotted together securely.

1. Place the table top, top side down (use some of the packaging cardboard to protect the top while it is upside down).
2. Stand the legs so that you are able to slot the two sections together and tap them together so that the top and bottom cross pieces sit flush
3. Insert the Legs into the table top making sure any stickers are lined up and the holes sit on the 4 pegs on the leg section.
4. Tap the legs fully into place if necessary.
5. Secure the 4 screws through the legs and into the table top using the holes provided.
